

## The making of a useful sissy

Sissy has forgotten all her duties and is chatting at the telephone with one of her sissy friends.

Even though sissy has been trained for many years and a strict regimen of enforced feminization, chastity and cuckolding has turned her into a subjugated servant to her Mistress, she sometimes tends to forget her place.

All of a sudden the door burst open and the sissy's Mistress comes in.

“What are you doing there, girl? Did I give you permission to chat and what's that in your hand? A cigarette? How dare you girl?”

“Extinguish that fag, that instant ... what's that dress you are wearing? It doesn't look like a maids dress to me? – Inspection!”

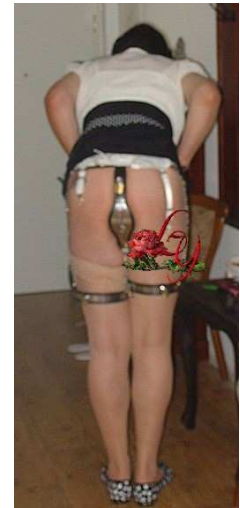

“For how long you are locked in that belt now? 3 years, girl?  
Good, the thigh bands are properly locked as well.  
Turn around, sissy!”

“Good I inserted your butt plug this morning. It keeps you well excited, doesn't it sissy?”

“Why is that garter strap not properly attached?”

“It is broken?”

“How dare you girl presenting yourself to your Mistress dressed like that?”

“Go and change in your white sissy dress ... I will show you what happens to maids who aren't dressed to her Mistress's standards and who chats with friends and smokes instead of working as hard as a maid is expected.”

“Well, you are properly dressed at last. Now open your mouth!”

“Do you like your new gag? It's made for lazy sissy maids like you.”

“Yes sissy, that’s your new workplace for today. You are going to be my toilet paper holder for the rest of the afternoon.”

“Well sissy, you toilet duties aren’t finished yet!”  
“Yes, of course does the toilet need a good cleaning and guess what’s that attachment for your gag is made for?”

“Deeper girl, deeper. You need to go under the edges as well!”

“That’s it girl, try harder.”

“No sissy, your gag time is not over yet! The cabinet in the launch need a good dusting. Isn’t that feather duster another useful attachment?  
Oh, I definitely like your new gag. Keeps you so busy, doesn’t it?”  
“You can dress in your pink sissy dress now. It looks more presentable when you are working in the launch.”

“Be careful with the china and the fine glasses. Don’t dare you breaking one of the fineries.”

“That’s it girl, well done.” “Yes, that’s the way you are going to dust

from now on. Practice makes perfect!”

“You think you are finished? Stupid sissy, there is another useful attachment and since you dared to smoke one of my cigarettes I think you can serve as my ashtray holder now.”

*With aching jaws the sissy maid tries to imagine what other attachments her Lady has bought for the new gag ....*
